

Multiplying a Two Digit Number by a Single Digit Number using a Number Line

$$13 \times 4 =$$

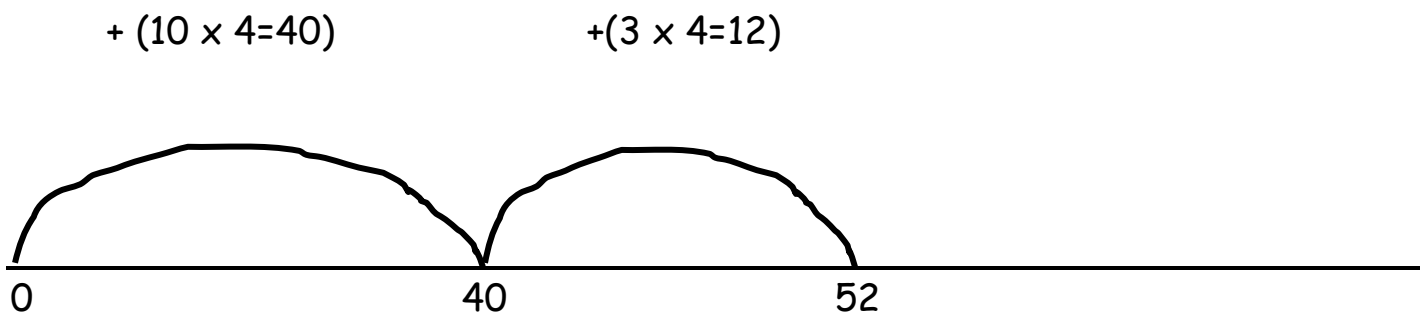

Number in one group $\times$ number of groups

Draw a line.

Write 0 at the start of the line and multiply the tens in the 2 digit number with the single digit number.

Now multiply the ones (units) in the 2 digit number with the single digit number.

Write the product in the number sentence.

$$13 \times 4 = 52$$
