

Subtracting Multiples of 10 on a Number Line

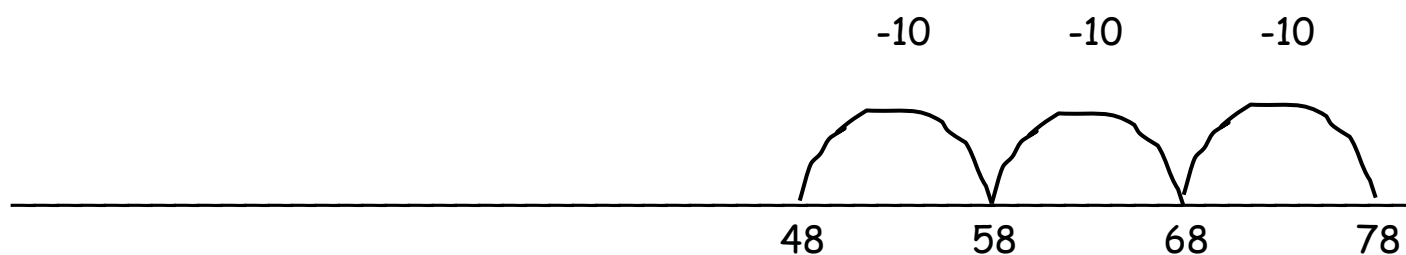

$$78 - 30 =$$

Draw a line.

Write the larger number under the line at the end of the line.

78

Look at the smaller number. Look at the digit on the left. This represents the tens. Count back that number of jumps. Record the running total below.

Check the ones(units) digit on the right does not change.

Write your answer in the number sentence.

$$78 - 30 = 48$$

...
